Interests

I am keen to take up interesting and challenging tasks from different branches of software programming, as I enjoy projects giving me an opportunity to develop.

I play for the university floorball team as a line captain, which helped me become a better leader. I am also a judge in Odyssey of the Mind, a creativity contest, in which I used to be a competitor representing Poland in the United States.

In my free time, I enjoy playing the guitar and the keyboard, as well as tennis.
